

# Sustainable Urban Form – towards an integrated approach

## Morning session

09.30	Registration and coffee
10.00	Keynote Speaker – <i>Nicholas Schoon</i>
10.10	CityForm: Introduction and Overview – <i>Prof Mike Jenks, Oxford Brookes University</i>
<b>Approaches to measuring urban forms and settings</b>	
10.25	New approaches to measuring urban form – <i>Dr Sergio Porta, Politecnico di Milano</i>
10.50	A meso-level approach to investigating patterns of energy use in different urban settings – <i>Prof Kevin Lomas, Dr Mark Rylatt, IESD, De Montfort University</i>
11.15	Discussion
11.30	Coffee
<b>Density and Sustainable Urban Form</b>	
11.45	The impact of density on residential development viability – <i>Prof Colin Jones, Heriot Watt University</i>
12.10	Suburban intensification – <i>Dr Hildebrand Frey, Dr Samer Bagaeen, University of Strathclyde</i>
12.35	Discussion
12.50	Lunch

## Afternoon session

<b>Urban Form and Society</b>	
13.35	Sustainable neighbourhoods and social sustainability – <i>Prof Glen Bramley, Heriot Watt University</i>
14.00	Sustainable Lifestyles Plus Project: initial research findings – <i>Dr Carol Dair, Oxford Brookes University</i>
14.25	Discussion
<b>Accessibility and Open Space</b>	
14.40	Accessibility and sustainable transportation – <i>Dr Neil Ferguson, University of Strathclyde</i>
15.05	Urban form and ecological gradients as predictors of ecosystem performance and the availability of green space – <i>Dr Richard Davies, University of Sheffield</i>
15.30	Ecological and psychological perspectives on the biodiversity of urban green space – <i>Dr Katherine Irvine, Dr Richard Fuller, University of Sheffield/IESD</i>
15.55	Tea
16.10	Discussion
16.30	Summing up – <i>Nicholas Schoon</i>
16.45	Close
